Nomee Industries started its commercial production in July 1993. The production plant is situated in Hattar Industrial Estate, District Haripur, NWFP, about 50 km from Islamabad. The re-rolling plant has a capacity to produce 36,000 metric tons of MS bars per annum on a double shift basis. The unit is fully equipped having its own steel-testing laboratories (both physical and chemical along with spectrometer), billet and steel cutting machines, a cooling bed, extensive storage yards, followed by an independent weighing bridge.
