For over 10 years Pinnacle Software has provided customers with customized and flexible accounting and business management software that meets the exact needs of their businesses. Many other accounting solutions require you to make changes to your business processes in order to utilize their software?costing your business far more than the price of the software in time and decreased productivity from retraining your staff. Pinnacle accounting and business management software has the ability to conform to your unique business processes. Pinnacle flagship accounting system is the culmination of over decades of experience in providing flexible, real-time business information solutions to over 50,000 users. Pinnacle is on the job in over 300 industries from parts distributors to apparel manufacturers, Media Advertising, Cement Manufacture, Financial Consultants, Cement Distributors, Real Estate, Textile Industry, housing authorities and pesticide industry.
