Our Services: Our services range from Event Management, Wedding Planning, Fashion Shows, Public Relations, Celebrity Management and a host of media related services. Our fully integrated operations team is adapt in devising and implementing wide range of innovative activities that would give your brand a boost it has never had before. Ruby Rubies range in color from light to deep red. The biggest Pakistani deposits are in Hunza Valley of the northern Kashmir, once known as the Gilgit Agency. The Hunza ruby is a deep 'blood' red. Emerald Like aquamarine, the emerald belongs to the beryl group of gems. Emeralds are geologically rare, but fine specimens are located in Swat, Pakistan. Pakistani emeralds are medium to deep green in color. Tourmaline Tourmaline comes in a variety of colors including golden yellow, lime green and golden brown. It is found in pencil-shaped crystals. In Pakistan it occurs in Chitral, Swat, Dir, Gilgit and Azad Jammu Kashmir.
