IHS Occupational Health and Safety Integrated Health Services (IHS Pakistan) is Pakistan's leading health organization involved in health service delivery through establishing clinics, hospitals, labs and home and emergency medical response systems (covering both curative and preventive aspects) besides school, occupational and corporate health services, health research, consultancies and health infrastructure development. The IHS Corporate Health System covers the full spectrum from hiring an employee, to meeting his/her day-to-day needs, to protecting his/her health through health education and timely vaccinations, and health and safety measures to shield the employee from occupational hazards. A brief outline of IHS Corporate Health Services is as follows: ? 24 hr. Round the clock a team of competent IHS Physicians is available for medical advice or consultation. ? 24-hr On-Call Services of doctors, paramedics, nurses and state of the art ambulances for any medical emergen
