In today's competitive marketplace, it is not enough to be a leader in your industry. To be successful, you need to be a leader in safety... and although there are time and cost implications involved in the development of a quality safety program, the long term benefits far outweigh the initial cost. OASIS develops customized quality, health, safety and environment (QHSE) programs for companies in a variety of industry sectors. OASIS's professionals draw on their many years of occupational, health and safety experience for the development of customized policies and programs. Knowledge of the changing regulatory and business environments not only helps in the development of these policies and programs, but also in their implementation. Depending on your company's specific needs, policies and programs can be written as standalone documents, as a comprehensive safety management system (QHSE), or as an element to enhance an existing safety program. A QHSE (Quality, Hea
