For over 30 years, True steel surgical clients have benefited from our ability to consistently provide high-quality specialty surgical instruments and our outstanding industry knowledge. Our product consultants bring years of industry experience to every customer transaction and our goal is delivering 100% client satisfaction. ß True steel surgical, known for unsurpassed overall value, sells German and Japanese stainless steel instruments, we will only quote when we match your instrument specifications exactly and can deliver an equal or better quality instrument with substantially more value. We can reference any catalog number from any instrument company. ß Our competitive advantage is created through a dedicated team of highly-trained and experienced Product Consultants who deliver unparalleled client service. We provide our clients with both a primary and secondary Product Consultant to ensure that a consultant familiar with your account is always available. We understand the uniq
