Mukabbir schools system strives to develop an enriched learning community that promotes academic achievement, leadership and Islamic values, with a purpose to provide opportunities for students to shine at their best, use their greatest potentials, globally adapt to the diverse and ever-changing society and to build a rational Muslim individual out of the learners. Our aim is to create a friendly learning environment where students could learn life skills i.e. social skills, respect, self-worth, empathy, critical thinking, creativity or realizing one's own potential and manage to distinguish them on the basis of knowledge, competence, Islamic values and moral standards.
