

PGPC LNG Import Terminal

Q7FP+VWC, Port Qasim, Karachi, Pakistan
Karachi, Sindh
Pakistan

Pakistan GasPort Consortium Limited (PGPC) is the largest LNG Import and Regasification Terminal in Pakistan utilising a Floating Storage and Regasification Unit (FSRU) constructed by Samsung in Busan, South Korea and is selling 600 mmcf/d of its Regasification capacity to Pakistan LNG Terminals Limited (PLTL) under the 15-year LNG Operation and Services Agreement (OSA) signed on July 1, 2016, which in turn bears the responsibility of importing LNG and making it available at the FSRU. With a nameplate capacity of 750 mmcf/d, PGPC provides Storage and Regasification services at 96% annual availability factor against a levelised tariff of US\$ 0.4177 per mmbtu.
