HI-TEQ Automation Services is one of the pioneer in IT & Power solution providers, established in the MULTAN (City of Saints) since 1993. This emerging market niche is not being adequately served by current suppliers, and provides us an opportunity to deliver quality solutions and services at very affordable prices.

We do not sell only computer systems, our vision is to educate the people with the latest technology being introduced in the world of Information Technology. Be it desktop computers, state-of-the-art Servers (ranging from Entry-Level Servers to Critical-Business Servers), Networking Solutions(Wired & Wireless), Office Automation equipment (Fax Machines, PABX, Photocopiers), Multimedia based Labs, Bio-Equipment based Labs and Power Solutions (UPS & Generators) in regards of information systems.

We provide our professional services to South Punjab region in this field since 1993. We have long history of mega projects; our clientele from Small Offices to Large Enterprises, Government/Semi-Government segments as well as Educational and Private Organizations of South Punjab.
