OTTO Manufacturing Pvt Ltd is one of the leading companies that specialize in the manufacturing and installation of overhead cranes in Pakistan. We are also engaged in manufacturing M.S fabrication, manufacturing of components, parts, or steel structure.

The company has over two decades of professional experience in manufacturing/installing Over Head Cranes, Gantry Cranes, Explosion Proof Cranes, Pneumatic Cranes, Chain Hoists, Wire Rope Hoists, Allied Steel Structures & Chain Blocks.

Our manufacturing plant is equipped with the latest state of the art equipment backed with a quality assurance system. With the use of modern technology, we feel proud to claim that we are one of the leading crane importers/manufacturers in the country.

We are the sole representative of M/S Street Crane Company (U.K) established as one of the world's volume crane makers. Their reputation for quality, reliability & advanced crane technology is known the world over.

We also represent ETS Engineering of Italy specialized manufacturers of Explosion Proof Overhead Cranes required for sensitive installations.

Our success story is enshrouded in the fact that we provide an excellent after-sales service to our valued clients/customers.
