Vision Telecom is a global IT & Telecommunication Services provider and System Integrator with extensive experience in designing and delivering terrestrial network solutions by providing innovative applications and high value-added services, we create new opportunities for mobile and fixed line telecom operators, internet service providers, vendors and partners to boost performance, reduce costs and retain customers. Vision Telecom is a licensed Services provider with seamless Managed connectivity solutions for Carriers and Corporate segments of the market. Vision Telecom has partnerships with Long haul and Metro Optical Fiber Cable network service providers for intra-country connectivity and sub-sea marine fiber cable operators for integrating International End-to End links. Founded in 2004, we seek to be the telecom and IT solutions provider in voice and data domains by leveraging on our human capital and embracing technological innovations to offer our customers unprecedented choice and value. Over the last 11 years, Vision Telecom has excelled in providing connectivity solutions to B2B segments in its own multi-layers OFC network spanning over all the major cities within Pakistan.
