We, the National Scientific Corporation, are a company committed to remain at the forefront for the supply of laboratory & field instrumentation and equipment for Analytical, Environmental Monitoring, Agriculture Research, Education, Medical and Civil Materials Testing Instruments in Pakistan. We are achieving this goal by representing world's well-reputed and top ranked manufacturers in their respective fields.

Since 1987, the establishment year of National Scientific, our goal has been to provide top quality testing equipment with complete and efficient service support to our customers. In order to achieve our goal, we always keep an eye on the future developments and offer the best product with state of the Art technology to our customers.

Treasuring experience since 1986 in the quality instrumentation, N.S.C. is able to provide extensive and comprehensive after-sales-services in addition to supply of equipment.
