Horizons International is a well-diversified group of companies, providing Services & Solutions for Information Technology, Engineering & Mechanical Design, Trading (Import & Export), Security and Minerals & Chemicals. Founded in Pakistan in 1995 as an engineering based trading unit and later emerged as engineering and mechanical design Consultancy Company. After successful years in these fields, Horizons International established Information Technology Department.

From local company, we have expanded to become one of the renowned multinational companies that supply its high tech services to many countries around the world.

Horizons International with its Efficient and professional engineers and strong financial strength is ready to take up any new challenges the world has to offer. Our Quality control system is simply the best, in-house system is ERP based and we are ISO 9001:2008 certified company.

Horizons International is also member of:
LCCI (Lahore Chamber of Commerce Industries)
APMIA (All Pakistan Marble Industries Association)
