GeoScience Associates (GSA) was founded by Mr. Syed Mosoof Hussain in 1999. GSA is a leading consulting & testing company specializing in Geophysics, Water Resources, Geotechnical Engineering, Foundation Pile Testing and Environmental studies. The company's primary objective is to establish itself as a vital part of clients' resource infrastructure by offering qualitative services and solutions in a modern, focused and solid concept. Striving to bring latest technology in Pakistan. GSA has developed and is continuously developing close associations with companies and professionals globally.

Although being a small firm GSA has leveled well with large companies in the industry and has created trust among its client base for its services.
