Smart Card Technologies is proud to be the only digital card manufacturer in
Pakistan (Lahore) with state-of-the-art machinery working under a highly secured
atmosphere. We manufacture a variety of card types from 300-micron thickness
with a varnish finish to 810-micron smart cards with lots in between! We are here to
revolutionize the concept of cards by providing digitally printed, high quality cards
of varying substrates catering to the unique and specific needs of every customer,
be it . . . School, Universities, Banks, Telecom Sectors and Hotels.
