Nafees Badges is leading name in school badge industry in Pakistan. Nafees Badges was established in industrial city of Faisalabad in 1986 by a leading educationist and a creative designer in badge industry. It is the unmatched skill level of our team right from top to bottom which makes us a very prominent player in a very competitive market. Nafees Badges has also a team of dedicated designers and craftsmen who know the art of converting concept into reality with the help of advanced technologies. We have a state of the technology installed at our production facility which enables us to offer our customers quality products which are second to none. This is in complete contrast to an environment where badge production is still a labor intensive job.
