Aquaculture Technologies Pakistan through years of hands-on-experience offers its services to potential investors for complete setup of Fish and Shrimp farms in the Thatta District of Sindh. Aquaculture is a profitable business and the scope in this field is enormous. We can provide turnkey solutions which include consultancy, site selection, purchase of suitable land, fish seed, fish feeds, farm equipment, farm management and marketing. Species include Carps, Catfish, Barramundi, Giant Freshwater Prawns, Tilapia and Hybrids and other exotic species. Farming methods can be extensive or semi-intensive or both. Good Aquaculture Practices with proper Aquaculture Certification and an on site Processing Plant will pave the way for Exports to all parts of the World.
