At Tek Linx our mission is to design and manufacture high-quality, innovative, effective and reliable products and solutions and to provide exceptional service and support that exceeds customer expectations. At Tek Linx, we design, develop, implement, and support technologically sound embedded solutions. We specialize in GPS tracking systems for commercial fleet management in a broad range of industries. With the knowledge and experience to assist you with your product development, Tek Linx enables you to deliver world class products to your customers. Rely on your in-house experts to provide what they do best, and off load your embedded tasks to Tek Linx because that's what we do best. Let us turn your concept into a working product
