TRICOM is dedicated to provide its customers complete solutions to increase productivity and reduce cost. TRICOM is your ?One stop shop? from business analysis to your call center needs and to software design and development. We put you in the driving seat and help you navigate to your business success. Tricom BPO is an end-to-end outsourcing services provider. We address your business challenges through our integrated business process outsourcing solutions, years of experience, advance business information system skills and most importantly YOU. We unlock business value by applying proven methodologies and business excellence frameworks to significantly reduce costs, enhance effectiveness and optimize business processes. We in our own way define BPO as the act of utilizing our services for our customers in order to perform its back office operations that might be payroll administration, customer help desks/ call centers, tele- marketing, accounting, billing; the list is endless.
