Established in 1992, the company is producing and marketing non cross linked polyethylene foam products with the brand name 'Diamond Jumbolon' which are used for thermal insulation, sound insulation, packing and water proofing. Headed by a dynamic team of professionals. Diamond Jumbolon is serving the nation in energy conservation and providing cost effective, comfortable indoor environment for residential, commercial and industrial buildings. Company has a long record of customer satisfaction, a large list of installations and is also working hard to increase awareness of energy saving and human comfort by using thermal insulation among the masses. Environmental Policy Company policy is to manufacture thermal insulation products which help save energy, while at the same time, not causing any kind of environmental pollution. It eliminates all scrap material by recycling it. All unusable scrap material is decomposed by UV influence.

* It is: Non toxic * Non pollutant * Ozone fr
