WINDS INTERNATIONAL was established by a group of professionals, project managers, architects, engineers and skilled craftsmen teams, with over the years of combined experience in corporate and commercial designing, engineering, constructing, building, furnishing and providing all kinds of office equipments and supplies as well as industrial solutions. Our business plan is simple; nullify client's frustration by locating and managing various trades proving to be the single resource provider of all possible services required. WINDS INTERNATIONAL is exceptional by design. We offer a variety of services and products tailored to the needs of each client. Initially, each client / project is assigned a project manager who consults with the prospective client to fully understand the scope of work and size of the project, and to assist the planning and space evaluation process. The Project Manager then educates and guides the prospective client towards developing a realistic budget based on
