Â AWA Software House provides software solutions to a wide spectrum of businesses. Major types of businesses that have already benefited from our services are Industrial Manufacturers, Airlines, Large Hotels, Educational Institutions, Commercial Importers, Distribution Houses, Local Traders, Service Providers are some of them to name.Â During the last two decades r we have never felt handicapped with the contemporary technology and have always provided best solutions in available technologies of that era. Major tools that we used were dBase III plus, FoxBase, FoxPro, MS Visual Basic and presently we are working on the newest concept of Cloud Computing in business applications using .Net Technologies. Providing custom solutions at affordable price has been our major strength and is one of the reasons of surviving the most turmoil periods of the economy.Â Â
