IRF is a specialized research firm that offers solutions which gives you an opportunity to confirm, clarify, pursue or even discover new aspects of anything you are interested in through research. International Research Force was established with the aim of guiding its clients to make more intelligent decisions for improved organizational outcomes. Through its team of highly qualified professionals who have more than 20 years of experience in the field of research, IRF has the capacity to understand your needs, advise a suitable framework for fulfilling those needs and then provide the right solution. We, therefore, act as your partners through smarter and bolder approaches. It has adopted state of the art technological systems to undertake research from project management to data collection tool development to data collection, analysis and reporting. Additionally, it also applies all standards of research ethics including data safety and confidentiality

Business Type: Service Provider
