Maxxam-V International is one of the leading company providing Print & Pack Solution here in Pakistan since 2002. Maxxam-V International always endeavor for solid and best suited solution for our valued customers in the field of auto identification (Barcode & RFID) and Self adhesive labels with consistent printing quality. All this is done through integrity, teamwork and innovation..

Rotary die-cutters, punchers and punch modules are imported from the best suppliers in Europe. We use ceramic anilox rolls from Germany which have unparalleled accuracy in ink transfer. Our doctor blades are imported from a highly reputed manufacturer in Europe. Our Flexo , Digital and Foil machinery is from Europe manufacturer, which ensures high speed and maximum productivity. Our implementation of cutting edge rewinding technology ensures accurate tag/envelope counts and zero waste. The central air conditioning of our facilities keep the humidity level very low and controls ambient temperature to maximize productivity of machinery and inks.
